

MonRoi

It is fantastic!

The MonRoi system revolutionizes the organization of chess tournaments at every level. This is the best way to record and store games.

GM Susan Polgar

Brana Giancristofaro
Founder & CEO

When Every Move Counts

I am delighted to introduce the MonRoi System to chess players, organizers and fans all around the world. MonRoi is leading the way to a richer world of chess, which blends art, logic and pure fun in a pastime that has captivated millions of people for so long.

The innovative MonRoi System allows players to record, store and review their games in an electronic format. Tournament directors can generate pairings and output bulletins with ease. Best of all, the MonRoi System links up with our World Databank of Chess to provide real time Internet access to tournaments in progress.

Our goal is to help everyone connect, grow and develop through this beautiful game. Be part of the MonRoi vision. Play, learn, compete and have fun!

Yours Truly,

Brana Malobabic-Giancristofaro

ABOUT BRANA

Brana is MonRoi's founding CEO. Prior to establishing MonRoi, Brana engineered new technologies at Nortel Networks. She gained international business experience working in the areas of new product development, manufacturing and distribution. Brana is an experienced presenter who has given lectures and seminars on subjects ranging from biomedical engineering to telecom convergence. She holds a Bachelor's Degree in Electrical Engineering. Brana was trained at a young age by chess Grandmasters and is passionate about chess and new technologies.

PERSONAL CHESS MANAGER

Imagine having your game in an electronic format!

- Your game is ready to review as soon as you are finished playing.
- No more lost or unreadable paper scoresheets.
- Your games are automatically saved for later analysis.

PROFESSIONAL TOURNAMENT MANAGER

A fully secure and effective way to organize and manage tournaments!

- Detect illegal moves.
- Broadcast thousands of games on the Internet with a single computer.
- Produce PGN files and bulletins automatically.

WORLD DATABANK OF CHESS

Enjoy following real-time international tournaments anytime, anywhere!

- Enter the Global Chess communication portal.
- Gain access to any chess game or match contained in the MonRoi database.
- Work more effectively with trainers and prepare for future tournaments.

PLAYER PROFILE

Register your tournament chess profile when you record specific information on the profile screen. Here you will enter your name, title (if any), rating, country, year of birth and FIDE identification using the touchscreen.

RECORD: CHESSBOARD MODE

Record the moves of all your tournament games on the scoresheet screen. In chessboard mode, simply tap the original position of any piece with the stylus and then tap the square to which you want to move it.

RECORD: INTERNATIONAL NOTATION MODE

On the Record screen in international notation mode, simply tap the chess piece key, and the numeric key. Then tap enter. You may switch back and forth from chessboard mode to International notation.

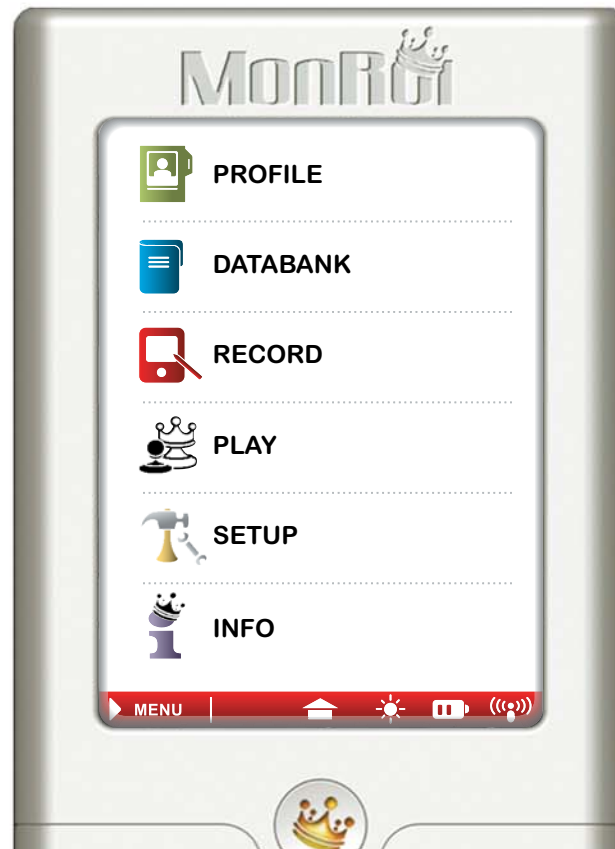

RECORD: ALGEBRAIC NOTATION

The MonRoi Personal Chess Manager automatically generates an algebraic scoresheet from entries in the chessboard or international notation mode.

TOURNAMENT START

Record all the information about the tournament in which you are competing. Here you will enter the tournament name, location, date of the game, round number, section, board number, opponent's name and rating using the touchscreen. Now you are ready to create your electronic scoresheet!

DATABANK

Allows you to review your games any time after they are finished. In the home menu tap the databank icon and simply select the game you want to review.

WORLD DATABANK OF CHESS

The MonRoi World Databank of Chess is an information highway and meeting place for chess players, organizers, federations, arbiters, media and fans all over the world. The search engine will provide immediate access to a chess games archive containing millions of matches from high level chess competitions past and present.

If you are at home or on the road, the World Databank of Chess will enable you to follow tournaments in real time and to review your favorite chess games at any time.

Want to view tournaments in progress from the comfort of your home? Want to broadcast a chess event? The sky's the limit. You can do it all when you are connected to the World Databank of Chess with MonRoi!

PROFESSIONAL TOURNAMENT MANAGER

Tournament organizers spend an inordinate amount of time and money transcribing chess games from paper scoresheets to a computer. The Professional Tournament Manager records and tracks all matches as long as they are recorded on Personal Chess Manager devices. Secure, tamper-proof, and registered by serial number, Personal Chess Manager transmits player moves automatically and seamlessly. Real time tournament tracking eliminates delays.

The Professional Tournament Manager is FIDE approved with advanced security. The "plug and play" system is completely portable and easy to set up. It manages thousands of games wirelessly and even detects draws by three fold repetition. Results are disseminated instantly and the program not only edits chess columns rapidly, but it also generates an automatic FIDE report.

The Professional Tournament Manager is an organizer, tournament director, arbiter, publicity and communications director all rolled up in one. It does just about everything short of setting up the chess pieces!
